“Without continual growth and progress, such words as improvement, achievement, and success have no meaning.” - Benjamin Franklin

It's been a full year (and one month) since Kaisercraft brought back our Kaisercraft Workshop magazine! In this time, the 12 issues have covered our new collections, hundreds of new products and a total of 300 pieces of inspirational crafty ideas including layouts, beyond-the-page, cards and papercraft! Each issue we're getting better at squeezing in even MORE ideas, techniques, tips and projects than ever before.

This issue we've packed full of layouts, cards, beyond-the-page and papercraft ideas using our two latest collections, Party Animals and Chapter One. Each collection is unique in their own right, Party Animals is perfect for circus themed projects, children's birthday parties or fun, bright and funky layouts; while Chapter One has an almost hidden theme about growth, personal development and living life to the full. Make sure you read on to find out how to make cute children's birthday party decorations, gorgeous photo frames for the home, fun layouts, cards and more!

This month's collection, Chapter One has really given us here at Kaisercraft an opportunity to reflect on the year that has been and also look to the future, how we continue to grow and improve our

products. We've released some fantastic products this year including our popular Paper Blooms, Wooden Flourishes and some amazing collections including Magic Happens, Chanteuse and Bubblegum Hills. But we want to hear what you think, we want to know what you love, so visit the Kaisercraft forum (<http://www.kaisercraft.com.au/forum/>) and leave your comments in the Comments, Suggestions & Feedback thread!

Until next month,
