As 2011 is well and truly underway, and the weather is starting to cool off I have been starting to think about Easter coming up and what it means for me and my family. Every family celebrates Easter differently, and mine included. Some choose to go to church, some don't celebrate at all. Mine? We go camping every Easter with a bunch of family and friends, have campfires, eat lots of chocolate and relax.

As time has gone by and things have changed, I still think back to those camping trips as a child and think about how important family and having fun together is. Whether it may be camping or a simply family dinner together, cooking in the kitchen or playing in the backyard – it's about being together with loved ones.

Autumn is a fantastic time to slow down after the busy summer months and celebrate Easter approaching, enjoy a campfire, read a book, scrapbook (of course!), and making baked treats in the kitchen with your family and friends.

This month we celebrate this time of year with two very special collections, 'Nan's Favourites' and 'Bubblegum Hills'. 'Nan's Favourites' is a retro collection perfect to scrapbook and record your time spent

in the kitchen cooking family favourite recipes; while 'Bubblegum Hills' is perfect to scrapbook those fun moments in your life with its bright and colourful patterns – it also has coordinating Specialty papers that make perfect to record your Easter memories.

You will find a bunch of fun colourful layouts and projects, perfect for little girls; along with Easter cards, projects and layouts; Recipe Books, Recipe Stands and Kitchen home decor projects in this month's Workshop magazine!

Enjoy!
